

Friends and Family Tests results March 2019

Additional comments from our patients this month:

Well organised, extremely efficient team. Caring staff, who provide advice as well as treatment.

The reception staff are so kind and helpful...and Dr Sissons is THE BEST Doctor I have ever had the pleasure of being registered to. DR Sissons is so very understanding and patient...and my son adores him. Keep up the great work

Port view will always fit you in to an appointment. They are very efficient and caring & I appreciate this .

I cannot rate my GP Surgery highly enough. I have always been able to access a GP, usually my own, on the same day. My surgery offer several ways to receive a consultation which is really useful when you don't necessarily need to take up a face to face appointment. All staff have always been friendly, professional, efficient and compassionate. I have all faith in my own GP, Dr Harrison, he provides me with excellent care. The ladies who work on reception and answer the calls are absolutely smashing. To sum up, Port View has consistently got it right and are leading the way with excellent care and superb customer focus. I can't thank them enough.
